AWARDS

Champion of AIB Season 2

2025

Held by AI4I

- Analyzed key business problems
- Developed AI agents to optimize user experience
- Built AI agents to automate internal business operations

PROJECTS

SENTIMENT ANALYSIS AI AGENT

2025

Created on n8n platform

- Built an AI agent to classify customer feedback into sentiment categories (positive, negative, neutral) using transformer-based models (e.g. BERT).
- Integrated the model into a web dashboard for real-time monitoring and visualization of customer sentiment trends.
- Fine-tuned model on domain-specific Vietnamese dataset to improve accuracy and relevance for e-commerce use cases.

EXTRACURRICULAR

2024 -

Member of ITB Club, UEL

- Organized 3 national-scale competitions
- Collaborated within an organization of 50+ active members
